

Technical Laser Ranging Workshop Matera 2015

NEWG - Network & Engineering Working Group

Meeting Summary

Matt Wilkinson / Georg Kirchner

- Laser Beam Divergence: NEWG will select a few main stations to measure it
- Site Log: Responses to the update questions were shown; discussion continues...
- Safety: ADS-B now widely in use; Radar: Often problems with VLBI neighbours
- Range Biases: Surprising 'Tuesday' problem identified 😊 - and other peculiarities
- SLR stations planned: NASA / SGSLR; Southafrica: Contract for Russian SLR station
- New NEWG Member:
- CONGRATULATIONS to Miriam & MATT 😊
